A manish Kalluri or 'Kallu' as he is popularly known, began his fitness journey 10 years ago, as a young boy aged 16. A frail and sickly teenager, he began training to gain strength, look good and live good. Inspired by his success, his friends were also motivated to join the gymnasium and Azaraiah took it upon himself to train them as well. His efforts paid off as he looked himself a part time job at a local gym.

During a visit to the United States of America, his exposure and experience in fitness grew much. He came to be trained and certified in sports and fitness, sports nutrition, and sports physics. He also mastered the art of training activities across various age groups from 5 to 80 years, with equal ease. On his return back to India, he took up various certifications to gain a deeper understanding in fitness - psychology, health issues, weight lifting and building mental strength.

Azaraiah's Azaraiah's Gymnasium, with branches in Banjara Hills and East Marredupally, has grown into a highly successful fitness chain, in just over three years. Through intense training, he has transformed the lives of about 300 people to date. Azaraiah's strongest man, Murali Kumar Chopra and Hyderabad women's champion, Bindu, 110kg, Queen Bevi Trips, Nanded, Andhra Pradesh, All India, Among Nanda and Challa Chatterjee among his previous clients.

Every person's genetic make-up, sleeping and breathing habits, height, weight and metabolism levels are uniquely different. Azaraiah personally studies new clients, for a

I WILL SURVIVE! - Virender Singh, aged 24

"I was a young and optimistic student when I obtained my degree in Mechanical Engineering. Unfortunately, I shortly contracted a rare disease termed 'Sjögren's Syndrome' that attacks the immune system of the body. In just a day, that 26kg and had function of my limbs, and became bed-ridden. The doctors there were helpless on how to tackle my condition. Azaraiah later subjected me to various physical tests that are used in testing weapons, to give me power to fight. The cost for these injections amounted to Rs. 4 crores and was covered by German insurance scheme.

Ultimately, I was fitted with robotic limbs to give me mobility and stability and went back to India. This was the turning point in my life. My family was determined to help me regain my health and my life and introduced me to Azaraiah. Azaraiah's research on my condition and started to work on me slowly but surely. Encouraging my father told me to his like as he took me to the gym to watch Azaraiah train somebody my own age. He provided me and helped me to fight back the disease and finally his efforts paid off as I slowly began to move my fingers.

Today, one year on, I can run, lift 30-40 kgs, dance and lead a completely normal life. I have even started my own business of Azaraiah. There simply is no turning back now, and all credit goes to Azaraiah and his dedication."

AGE IS JUST A NUMBER... - Srinivas, aged 50

"I was a typical Indian father who wanted the best for my son. The last back surgery that he was, he wanted to look forward for his studies and future. During an argument on this issue, when I demanded him to return to school, he said that not everyone had the capability to score good marks, and I'm 50, being aged 50, I don't have the ability to have a job pack!"

This disappointed and me thinking and I was determined to prove to him that I was not wrong. I started to train in my colleague Srinivas to train at Azaraiah's Gymnasium, who referred me to him.

BEFORE

AFTER

Understanding and regaining my vision did not demand any job or show any skill and I have again still every week, at the airport cargo division, he suggested a suitable training, nutrition and gave the diet plan with no use of supplements and steroids. On my part, I gave a 100% commitment to his plan. Within a matter of 30 days, at the age of 50, I became the proud owner of six pack and

My son, who was disappointed at my achievement, took the responsibility to work harder at his studies. He has made me proud by securing the 8th rank in the country. All thanks to Azaraiah for his training and encouragement in being the best we can be."

"Combining martial arts techniques and heart-pumping cardio, kickboxing is a high-energy workout that is guaranteed to burn calories and fat. It's an incredibly efficient workout. The cardio-conditioning element of kickboxing is one of the most effective ways to burn fat-especially that stubborn belly fat that's associated with an increased risk of heart disease, diabetes and some types of cancer."

Rajesh Sandhi, Managing Director, RS Infratech & Metals Pvt. Ltd.

"There's a large toning component to kickboxing because it forces you to engage all the muscle groups in your body. I have known Azaraiah for over 2 yrs now and he's been my trainer all throughout..He is an excellent trainer with exceptional knowledge on health and fitness coupled with a very well equipped gym, he ensures that every client that walks into his gym receives that special focus and a customized diet plan.. I have myself followed his routines and diet plan and have seen a transformation in me (which is no less than a 360 degree transformation). Even before you can trust yourself that you can do it he already has the believe in your strengths.. Give him your 100% and he'll transpose visible results in you.. He also has an outstanding team of trainers who are as focused and hardworking as well. If you're looking for a disciplined lifestyle and aspire to be healthy and stay fit..
